PETRENELLA R. GARCIA

Full Stack Developer

Career Objectives

A collaborative developer dedicated to professional growth and leadership opportunities. Passionate about software development, continuous learning, and delivering high-quality, innovative solutions that drive industry progress. Committed to leveraging expertise to contribute effectively to a dynamic and talented team.

Skills

- Proficient in programming languages such as PHP and JavaScript, as well as front-end technologies like HTML and CSS, and platforms like ThingsBoard. Familiar with Node.js, Python, with a strong foundation in backend and frontend development.
- Skilled in database management with MySQL and MongoDB.
- Adept at working in agile environments, fostering effective teamwork and collaboration.
- Proficient in Microsoft Office tools, including Word, PowerPoint, Publisher, and Excel.
- Specializes in designing and developing user-friendly, responsive websites.
- Quick learner with a strong ability to adapt to new technologies and efficient coding practices.
- Capable of developing and maintaining comprehensive technical documentation, guidelines, and procedures.

Experience

SOFTWARE DEVELOPER (2022 - PRESENT)

First Philec Inc.

- Develop and implement user-friendly, responsive designs to ensure seamless functionality across various devices and platforms.
- Continuously optimize designs and features based on user feedback and data analytics to enhance the overall user experience.
- Architect and design scalable software solutions that meet both functional and technical requirements.
- Write clean, efficient, and maintainable code using appropriate programming languages and frameworks, adhering to best practices and industry standards.

FRELANCE DEVELOPER (2020 - PRESENT)

- Designed and developed user-friendly, responsive websites tailored to client requirements.
- Gained expertise in front-end object-oriented programming to build efficient client-server systems.
- Contributed significantly to development of e-commerce and web-based applications, ensuring functionality, performance, and user experience.

DATA RESEARCHER TRAINEE (JUNE 2022 - AUGUST 2022)

Multi Source Global Network Inc.

- Execute operational tasks, including workflow system job setup, team coordination, and documentation validation.
- Contribute to the development and enhancement of data integrity and workflow-related projects and processes.
- Thrive in fast-paced, high-pressure environments, managing multiple tasks while ensuring accuracy and high-quality output.

ENCODER (MARCH - OCTOBER 2019)

LCA TITLING PROCESSING SERVICES

- Accurately organize, record, and maintain essential data with efficiency and precision.
- Ensure data integrity by verifying accuracy against original documentation.
- Input, monitor, and manage encoded data and records to maintain consistency and reliability.
